EMPTY STATE PATTERN

No sessions yet

Your first minutes will gather here, one quiet line at a time.

Begin a session | Log manually

Faint gathering heart · one serif line · one sentence · one primary. Used for empty Sessions and before the heart forms.

MOBILE TOP BAR

Manaheart

Settings

MOBILE BOTTOM NAV · 72 TALL

Heart | Sessions | Constellation reserved

Tabs are 104 wide and centred, so a third fits without re-layout. Active: primary label, mana icon, glow dot. Settings lives in the top bar.

DESKTOP TOP NAV · 80 TALL · CONTAINER 1200

Manaheart — Heart | Sessions | Constellation · reserved

Active link: primary text + 1px mana underline. Focus and Session-complete screens hide the nav. Below 640px the desktop layout swaps to the mobile top bar and bottom nav.

RHYTHM WEEK

RHYTHM
5 of 7 days

M T W T F S S

Practised: filled mana dot + glow. Missed: hollow missed ring. Today, not yet: dashed mana ring, bold letter. Always paired with "N of 7 days" text.

PROGRESS INDICATOR

Fourth circle forming	6h 40m / 10h
Just gained	7h 25m / 10h
Heart forming	4h 10m / 5h

2px track, mana fill with glow-bar. New gain shows as a core-white segment for one visit. Never a percentage.

Slow, continuous, never bouncy

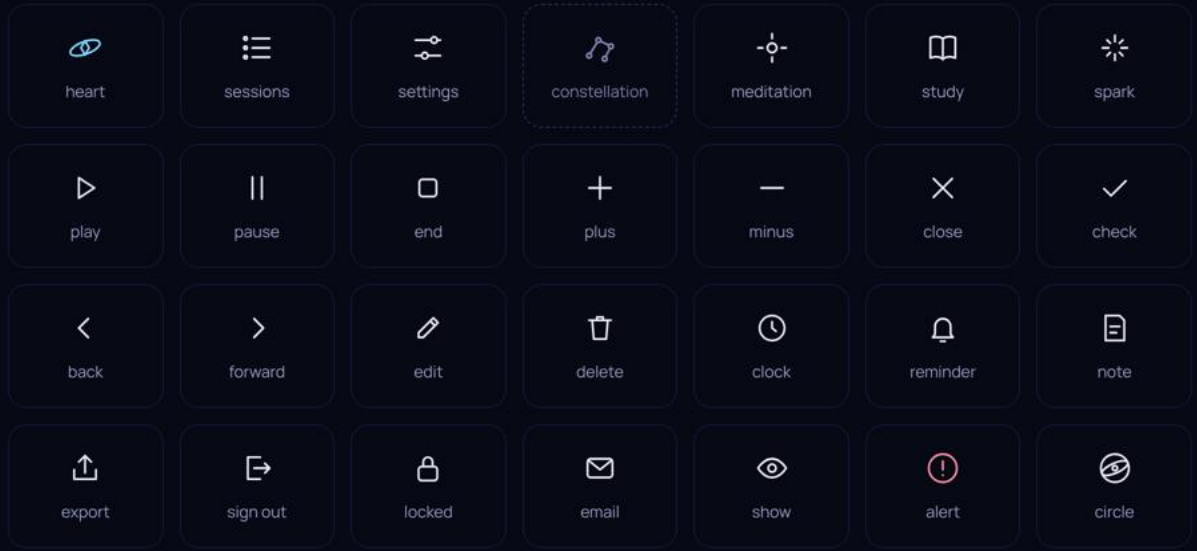

Ambient motion is slow enough to read as breathing, not activity. Nothing overshoots. Under prefers-reduced-motion every animation stops and meaning moves into shape, opacity and text.

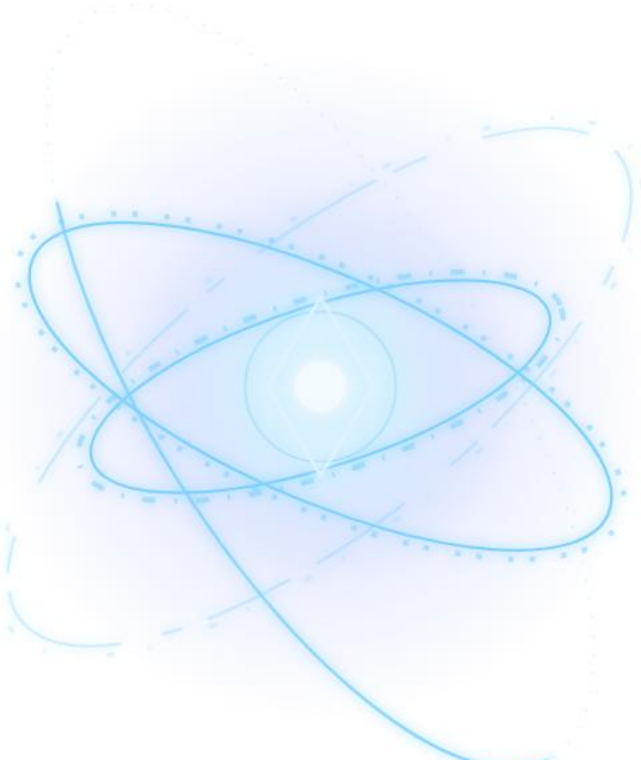

LIVE	SPEC	REDUCED MOTION
	**Stable ring rotation** Rune layer travels along the ring, linear. Odd rings 40s per loop, even rings 55s reversed, so neighbours counter-turn. Ring tilt never changes.	Runes hold still. Stable still reads as one continuous, even line.
	**Unstable flicker & wobble** Flicker 3.4s stepped, opacity jumps between 1 and 0.3 at uneven points. Wobble ±2.5° with a 2px drift, 6.5s ease-in-out alternate. No rune travel.	Fixed at 60% opacity, broken segments only. Never flashes faster than 3 times a second in any mode.
	**Forming-arc growth** After a session the arc extends to its new length over 1.6s, cubic-bezier(.4,0,.2,1), led by the spark. At rest it shimmers 0.5 to 1 opacity, 2.6s alternate. Dotted ghost shows the full path.	Arc appears at its new length at once. Progress text updates; no shimmer.
	**Heart idle pulse** Core scale 1 to 1.06, opacity 0.88 to 1, 5s ease-in-out alternate. In a focus session the background heart slows to 6s and dims to 0.3. After a gain it quickens to 3s for one minute.	Static at full brightness. The focus timer counts in place of the pulse.
	**Bottom sheet** Enter: slide up from 100% over 360ms, cubic-bezier(.2,.8,.2,1); scrim fades in over 240ms. Exit: 240ms ease-in. Drag down past 30% to dismiss.	120ms crossfade in place, no slide.
	**Modal & dialog** Fade plus scale 0.97 to 1 over 280ms, same curve. Exit 180ms. Toasts rise 12px and fade over 240ms, stay 4s.	120ms fade only. Toasts appear without rising.
	**Moments: gain, milestone, condense** Mana stream dashes travel up 2.4s loop. Headlines rise 12px over 1.2s. Condense: rings shrink to the core over 2.7s ease-in, core flares 1.5× for 0.7s, then the level-up screen fades in over 600ms.	Stream hidden. Rings fade out over 400ms, then the Level 2 heart appears static.

MANAHEART DESIGN SYSTEM · ICONS

Thin line icons

24 grid · 1.4 stroke (1.6 at 18px and below) · round caps and joins · no fills · currentColor. Secondary at rest, mana when active.

Skip

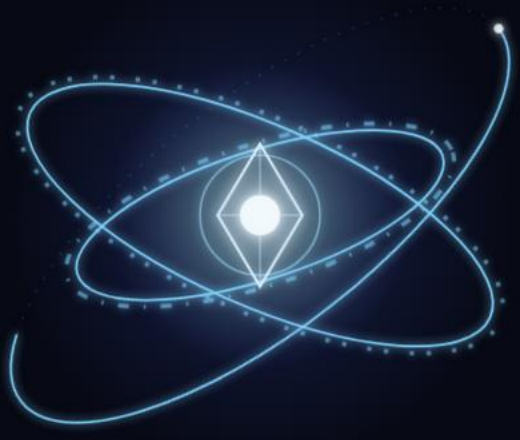

Time becomes mana

Every minute you meditate or study gathers as mana. After five hours of practice, it forms your heart.

Continue

Skip

Circles form around it

As your hours grow, up to five circles take shape and orbit the heart, each one a deeper reach of practice.

Continue

Rhythm steadies them

Practise most days and the circles steady; long gaps leave them flickering. When all five hold still, condense them into a stronger heart.

Begin
